How to Get Started

Step 1: Select the size of the Picture, Type of Frame (If applicable), and Background

Step 2: E-mail or arrange to have a photo taken. From the photo, I will crop the image to show what will be painted. Then I will e-mail the cropped photo with an Order Form, and the approximate date of completion.

Step 3 When I receive a check for 50% down, this will begin the order

Step 4: When the painting is finished, I scan it in and e-mail the photo to the client to see if any changes are needed.

Step 5: If the client feels the painting is completed, I will send it in the mail.

Step 6: When the client receives the Portrait the remainder of the balance is due.

- Once the order is placed, allow
3-5 weeks to complete the painting.
